# EASYSTORY

easy to discover

EasyStory is the first conceptual collection of furniture from the Ukrainian brand YourForest, which opens new perspectives for modern people and their interiors through functional and mobile furniture.

Relevant and versatile EasyStory objects are made from the natural materials and are committed to sustainability despite the rapidly changing world.

*“Drawing on YourForest's many years of experience and collective love for wood, we create simple elegant pieces that can add character to any space...”*

*...The EasyStory line is an ecological, carefully thought-out design and its perfect embodiment.*

*Our respect for organic materials and uncompromising focus on quality is evident throughout the entire process, from the first design sketches to the production stage in the carpentry workshop, where most products are created and finished manually.”*

**Yulia Korelska**  
*Founder of YourForest*

Combining Scandinavian minimalism with Asian aesthetics, we have brought together the past and the present in a timeless design. We believe in the power of expressive simplicity.

We create objects that will serve for years by working with local wood, choosing the most resistant species with expressive textures, and using environmentally friendly finishing coatings.

EasyStory embodies the desire for a simple and thoughtful style. The collection proves that minimalism in its crystalline form not only exists, but is also being improved.

The philosophy of the collection is based on four main pillars: self-care (physical and mental health), care for others, care for the planet, care for heritage.

We support the freedom and free choice of modern person to move in space, exploring new worlds, culture and wonder of our planet.

The owners of EasyStory do not need to buy new furniture every time now. Besides that, they do not need to violate the trends of smart consumption and ecological attitude to the surrounding world by disposing it.

From now on, furniture that creates a sense of permanence and home can be taken with you.

The EasyStory collection consists of 6 items: EasyBed, EasyDesk, EasyHanger, EasySeat, EasyTable and EasyTray.

The design of each EasyStory object is a balance between function and form, where the minimalist aesthetic perfectly demonstrates this balance.

The timelessness of the silhouettes and natural ecological material allow the collection not to lose its relevance over the years. Each item can be an addition to another Easy-, or act as a separate universal unit.

The main feature of the collection is self-assembly: easy, without additional fasteners (nails, screws, etc.), like a child's game. EasyStory will meet any changes with dignity and without problems: it will easily move to the next room, a new home or another country.

# EasyTray

The EasySeat stool symbolizes the age-old tradition of craftsmanship and illustrates the beauty of simple things by its own example.

This object is distinguished by the softness of its geometry and the monumentality of the construction.

A solid board is used in production, so the stool has an attractive appearance and retains a unique textured pattern. This feature facilitates the use of EasySeat not only for utilitarian purposes, but also in decorative functions: as a stand for flowers or art objects.

Year: 2023  
Material: ash

# EasyTable

Convenient and reliable, with a balanced design and easy to assemble. EasyTable table for a cup of coffee, a laptop or a glass of wine — it is beautiful both next to the sofa in the living room and next to the bed in the bedroom. Natural minimally processed wood, high-quality workmanship, ergonomic proportions are the guarantee of a happy interior future among other companion items from the collection.

# EasyHanger

A minimum of effort, a minimum of time and a maximum of results is an effective rule for the effective organization of home space. EasyHanger is the answer to bulky cabinets and metal hangers. Simple and compact, it can be used in the hallway or in the bedroom, to hold shirts or outerwear. A variation with a transverse shelf is an option for shoes or storing things.

# EasyBed

One of the main principles of the EasyStory collection is friendship and humanity. The space should be pleasant to live in, and the furniture should be comfortable to use every day. The model of EasyBed is addressed to a wide range of customers: from students who are furnishing their first home, to families with children in modern smart apartments, from supporters of a secluded life in country houses to modern co-living concepts for demanding young people.

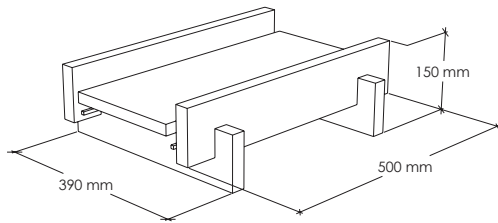

Due to laconic design and low position, the bed does not visually clutter the space and looks harmonious in combination with other objects. High-quality gum and strong, reliable construction, specially designed for everyday use, designed for a long service life.
