

Y'OURTFOREST

CATALOG

Furniture'24

YourFoRest is the leading brand of wall panels in Ukraine.

Later on, we came up with the idea of complementing wall panels with furniture items. Piece by piece, furniture collections have turned into a distinct full-grown product that already has more than 45 original items.

MID-CENTURY MODERN

Collection

eclecticism of styles, a symbiosis of form and content,
functionality and aesthetics

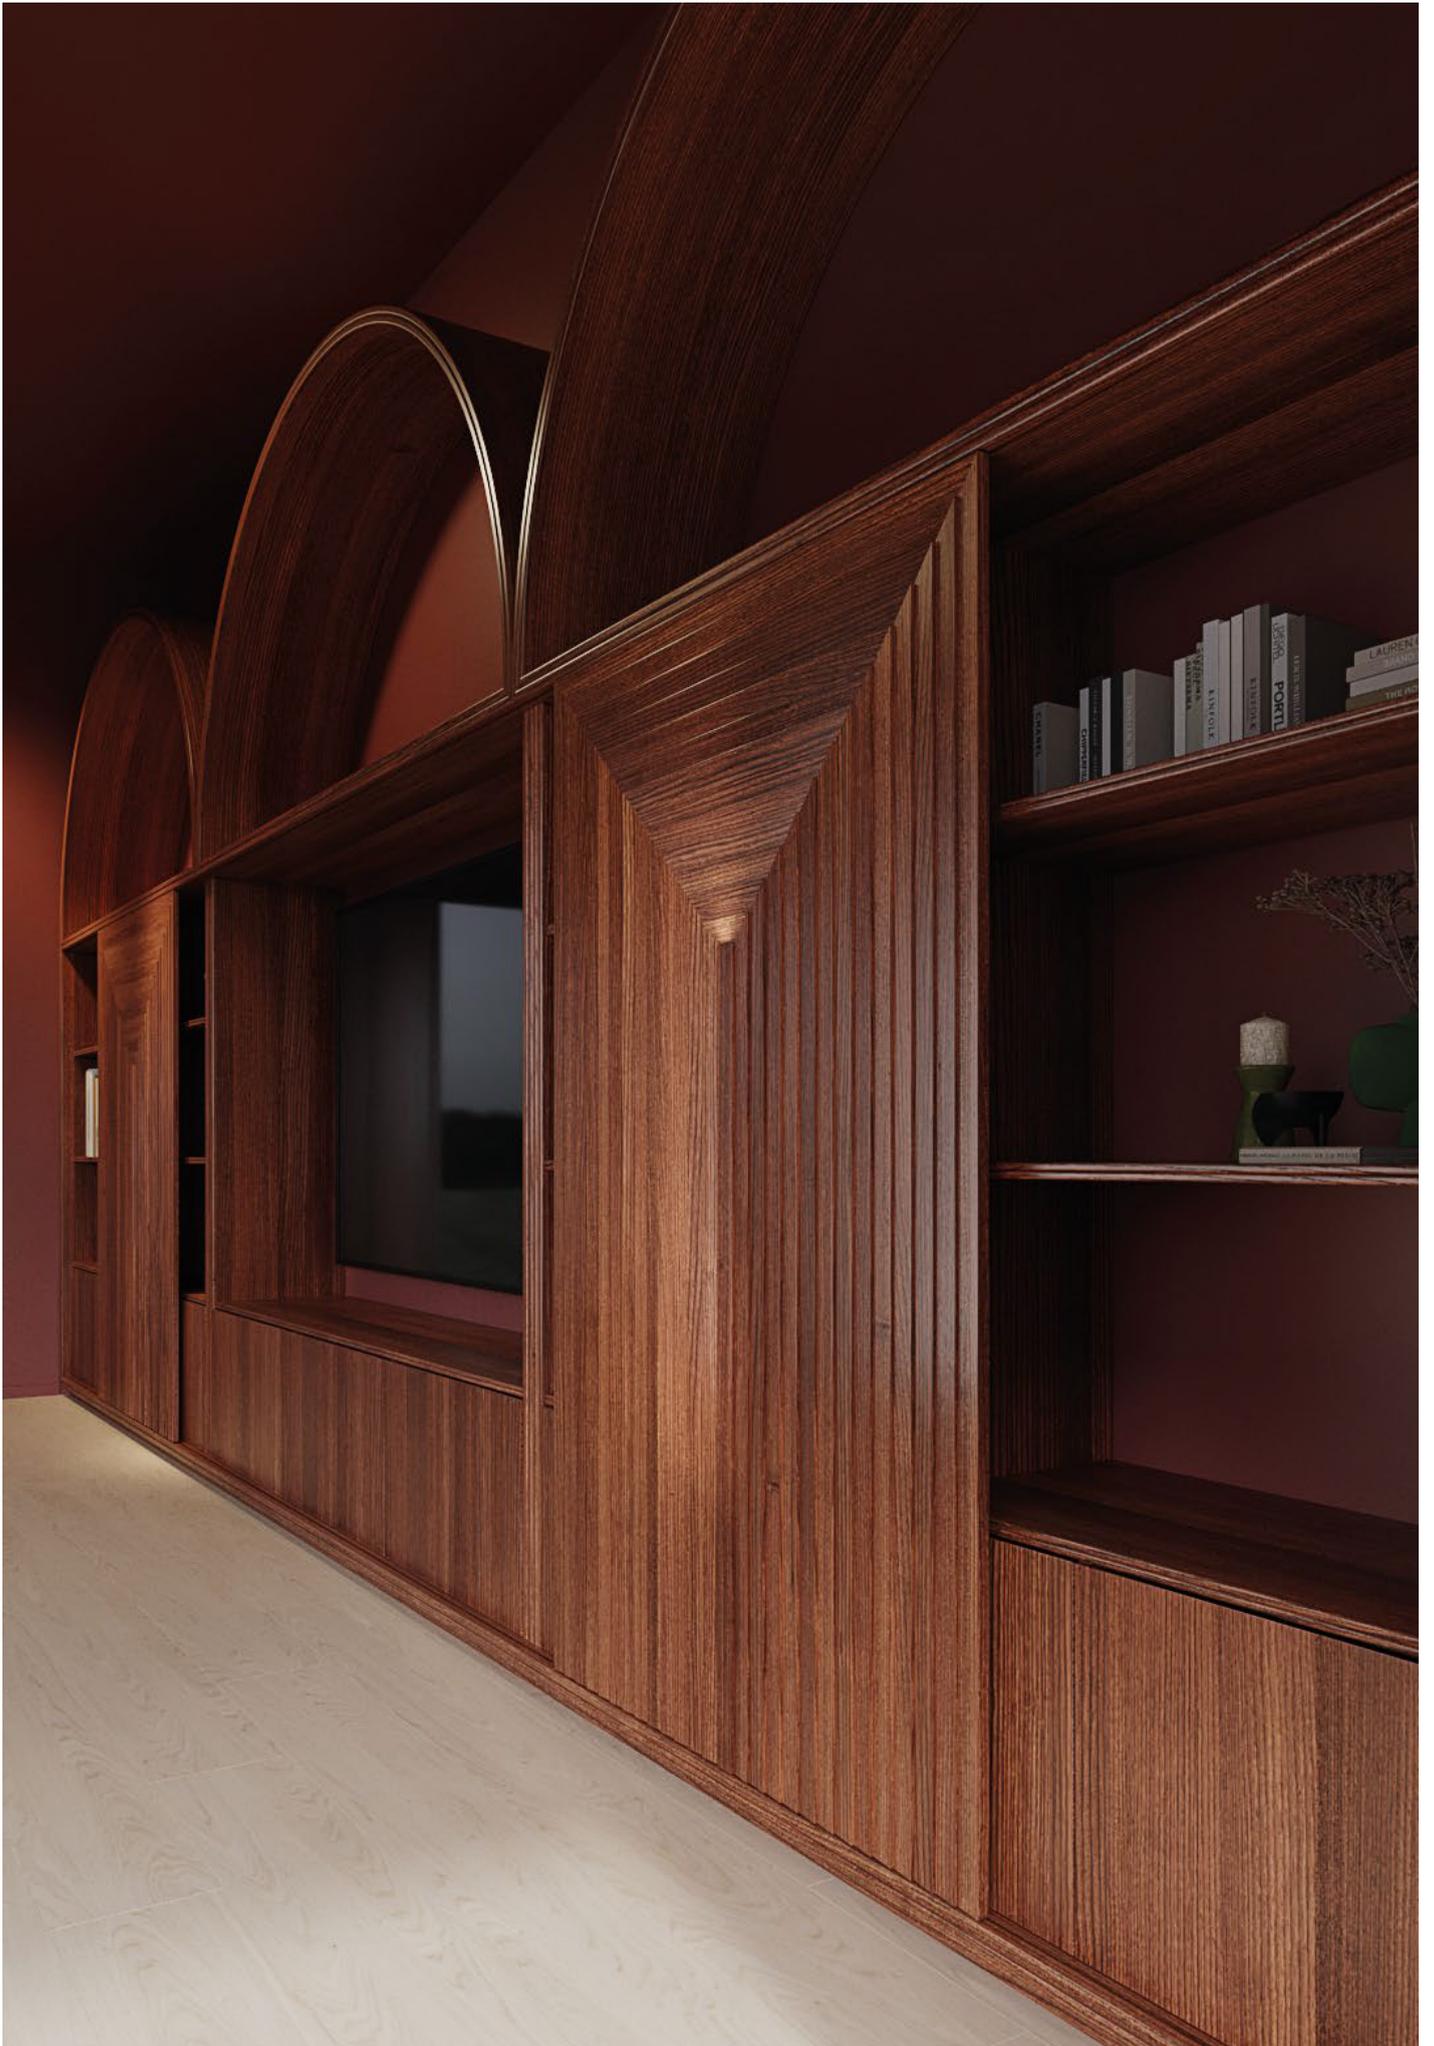

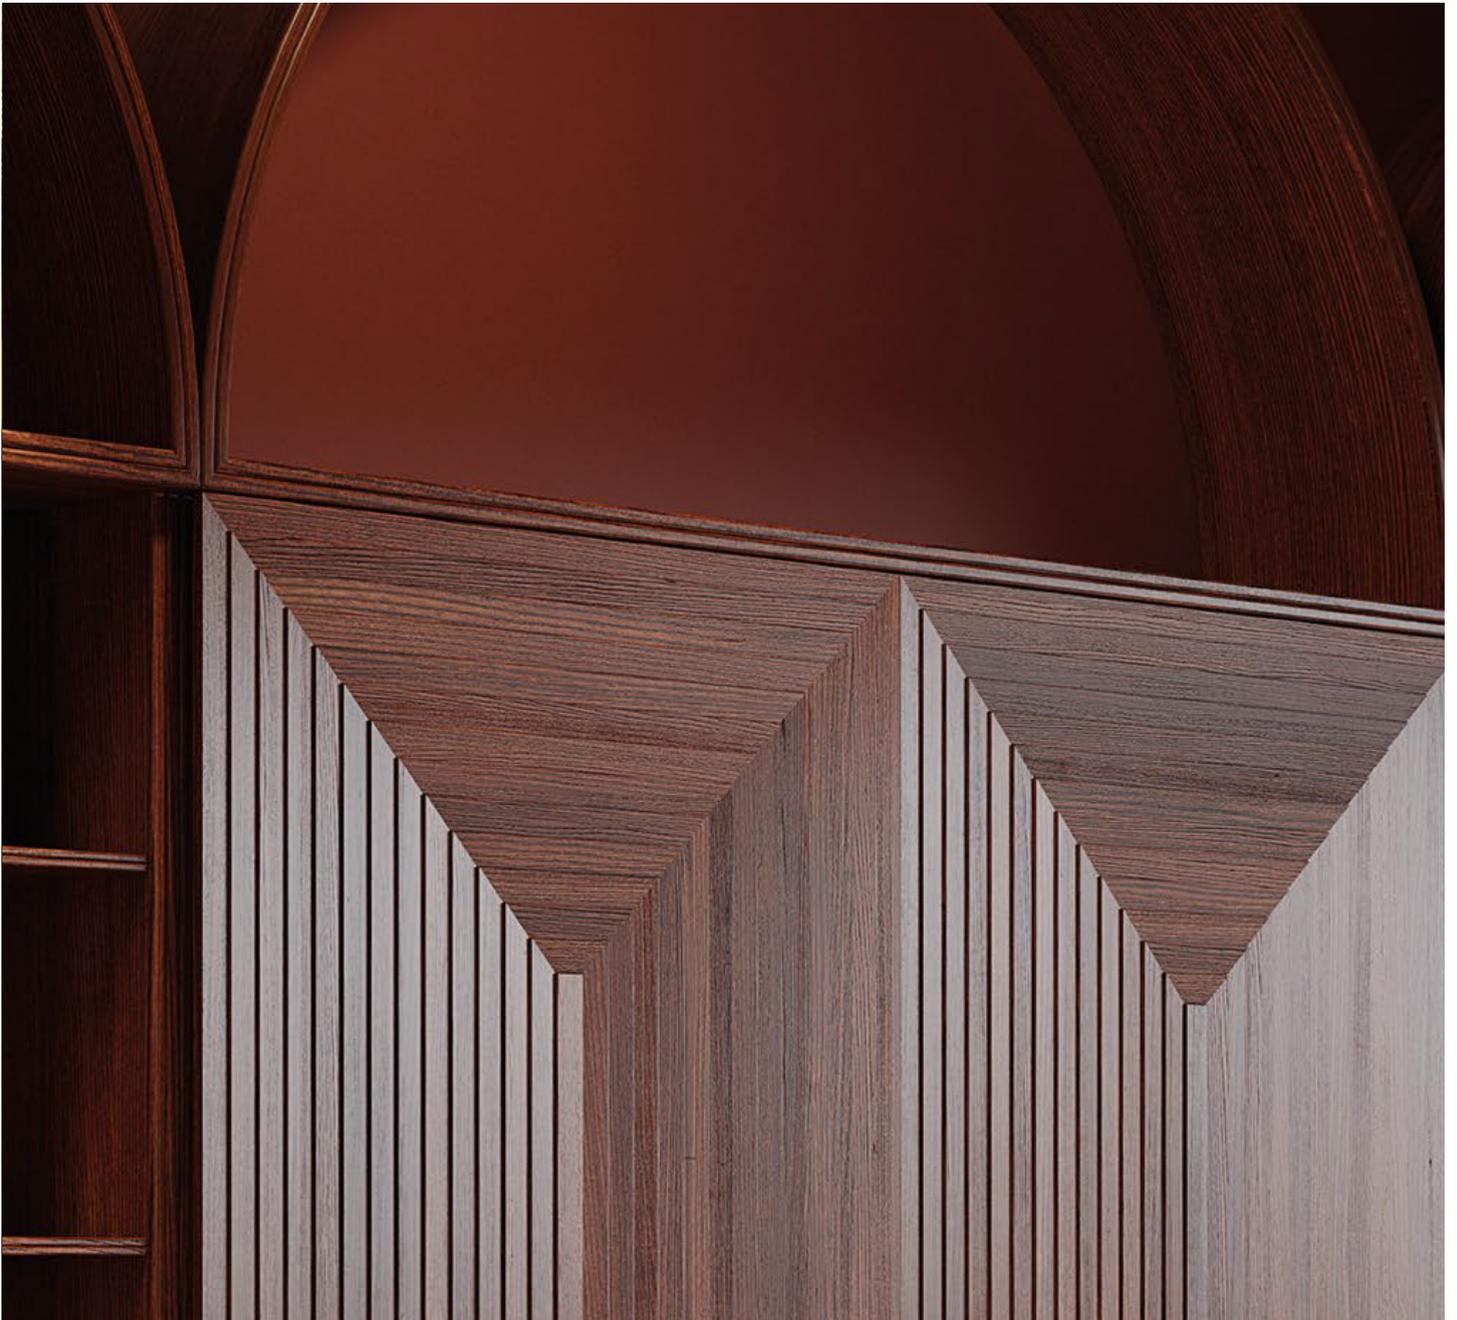

NOBLE Coffee table

Noble is the simplicity and smoothness of lines that combine in a dance of light form and strong content. Reliable, permanent and stable, the Noble table embodies the tradition of long-standing quality and luxury of precious furniture, without losing its relevance in a modern interior. Yana Molodykh designed the Noble table exclusively for YourFoRest.

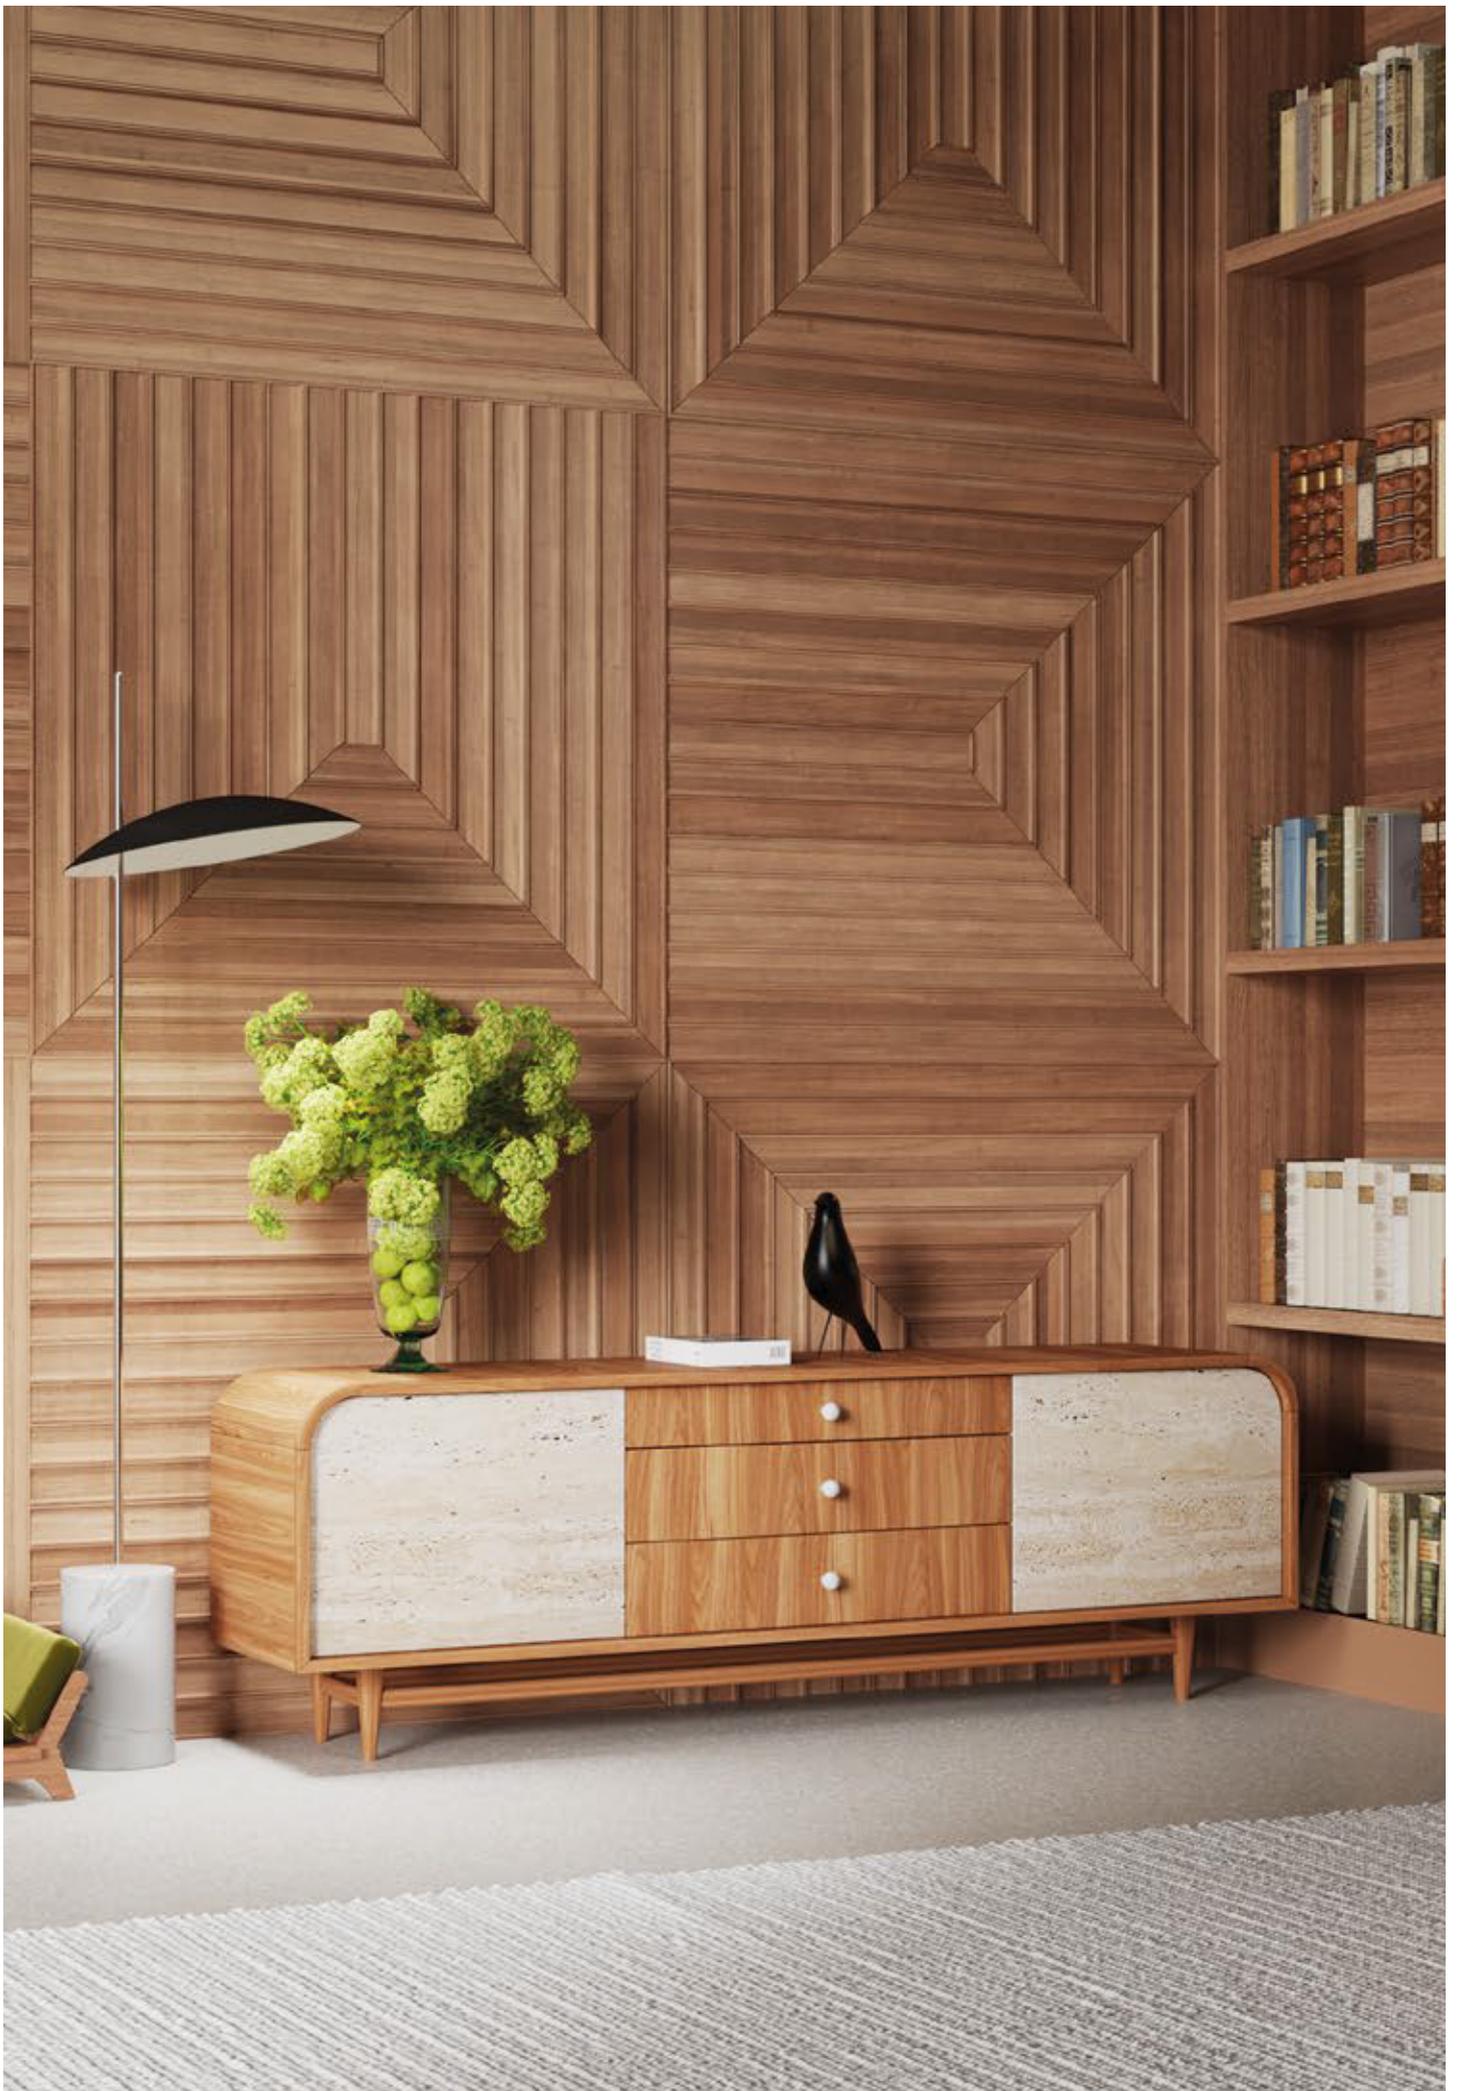

"The Noble table was created specifically for the Mid-Century Modern collection. It maintains its classic tone but has a gothic accent. We wanted to create large-diameter coffee tables, so we developed two versions: 110 cm in diameter for larger spaces and 80 cm for smaller ones." - Yana Molodykh.

ARC

The ARC shelving unit with sliding doors is a solution to the problem of combining technology and classics in a modern living room interior. The designer was faced with the task of hiding the TV screen in a way that would decorate the living room, make it stylish and timeless. ARC combines a variety of shapes - simple rectangular lines with soft arches that create a contrast and perfectly complement each other. Natural wood gently reflects light, filling the room with its warmth and restraint. The ARC wooden shelving is a practical interior unit, light and modern, which becomes an important link between technology and timeless classics. The ARC was designed by Yana Molodykh.

OSCAR Low cabinet

The Oscar low wooden cabinet from the Mid-Century Modern furniture and wall panel collection is an intriguing mix of texture and form. Its facade is crafted from a combination of two different materials - warm natural ash wood and cold, imposing stone. The geometry of the cabinet also draws attention - soft rounded upper corners contrast with sharp lower ones, creating an interesting shape for this essential interior unit.

BLISS Dressing table

Bliss is a table made of solid natural ash, which has a hidden storage system in its design. When closed, Bliss can serve as a console or even a desk, but its capabilities are much greater. You should open the lid and there it is – an ideal place for storing cosmetics, jewelry and other secrets. It has a built-in mirror with light and two pull-out drawers, making it even more functional and spacious. Bliss is a reliable place to store things that are valuable to you.

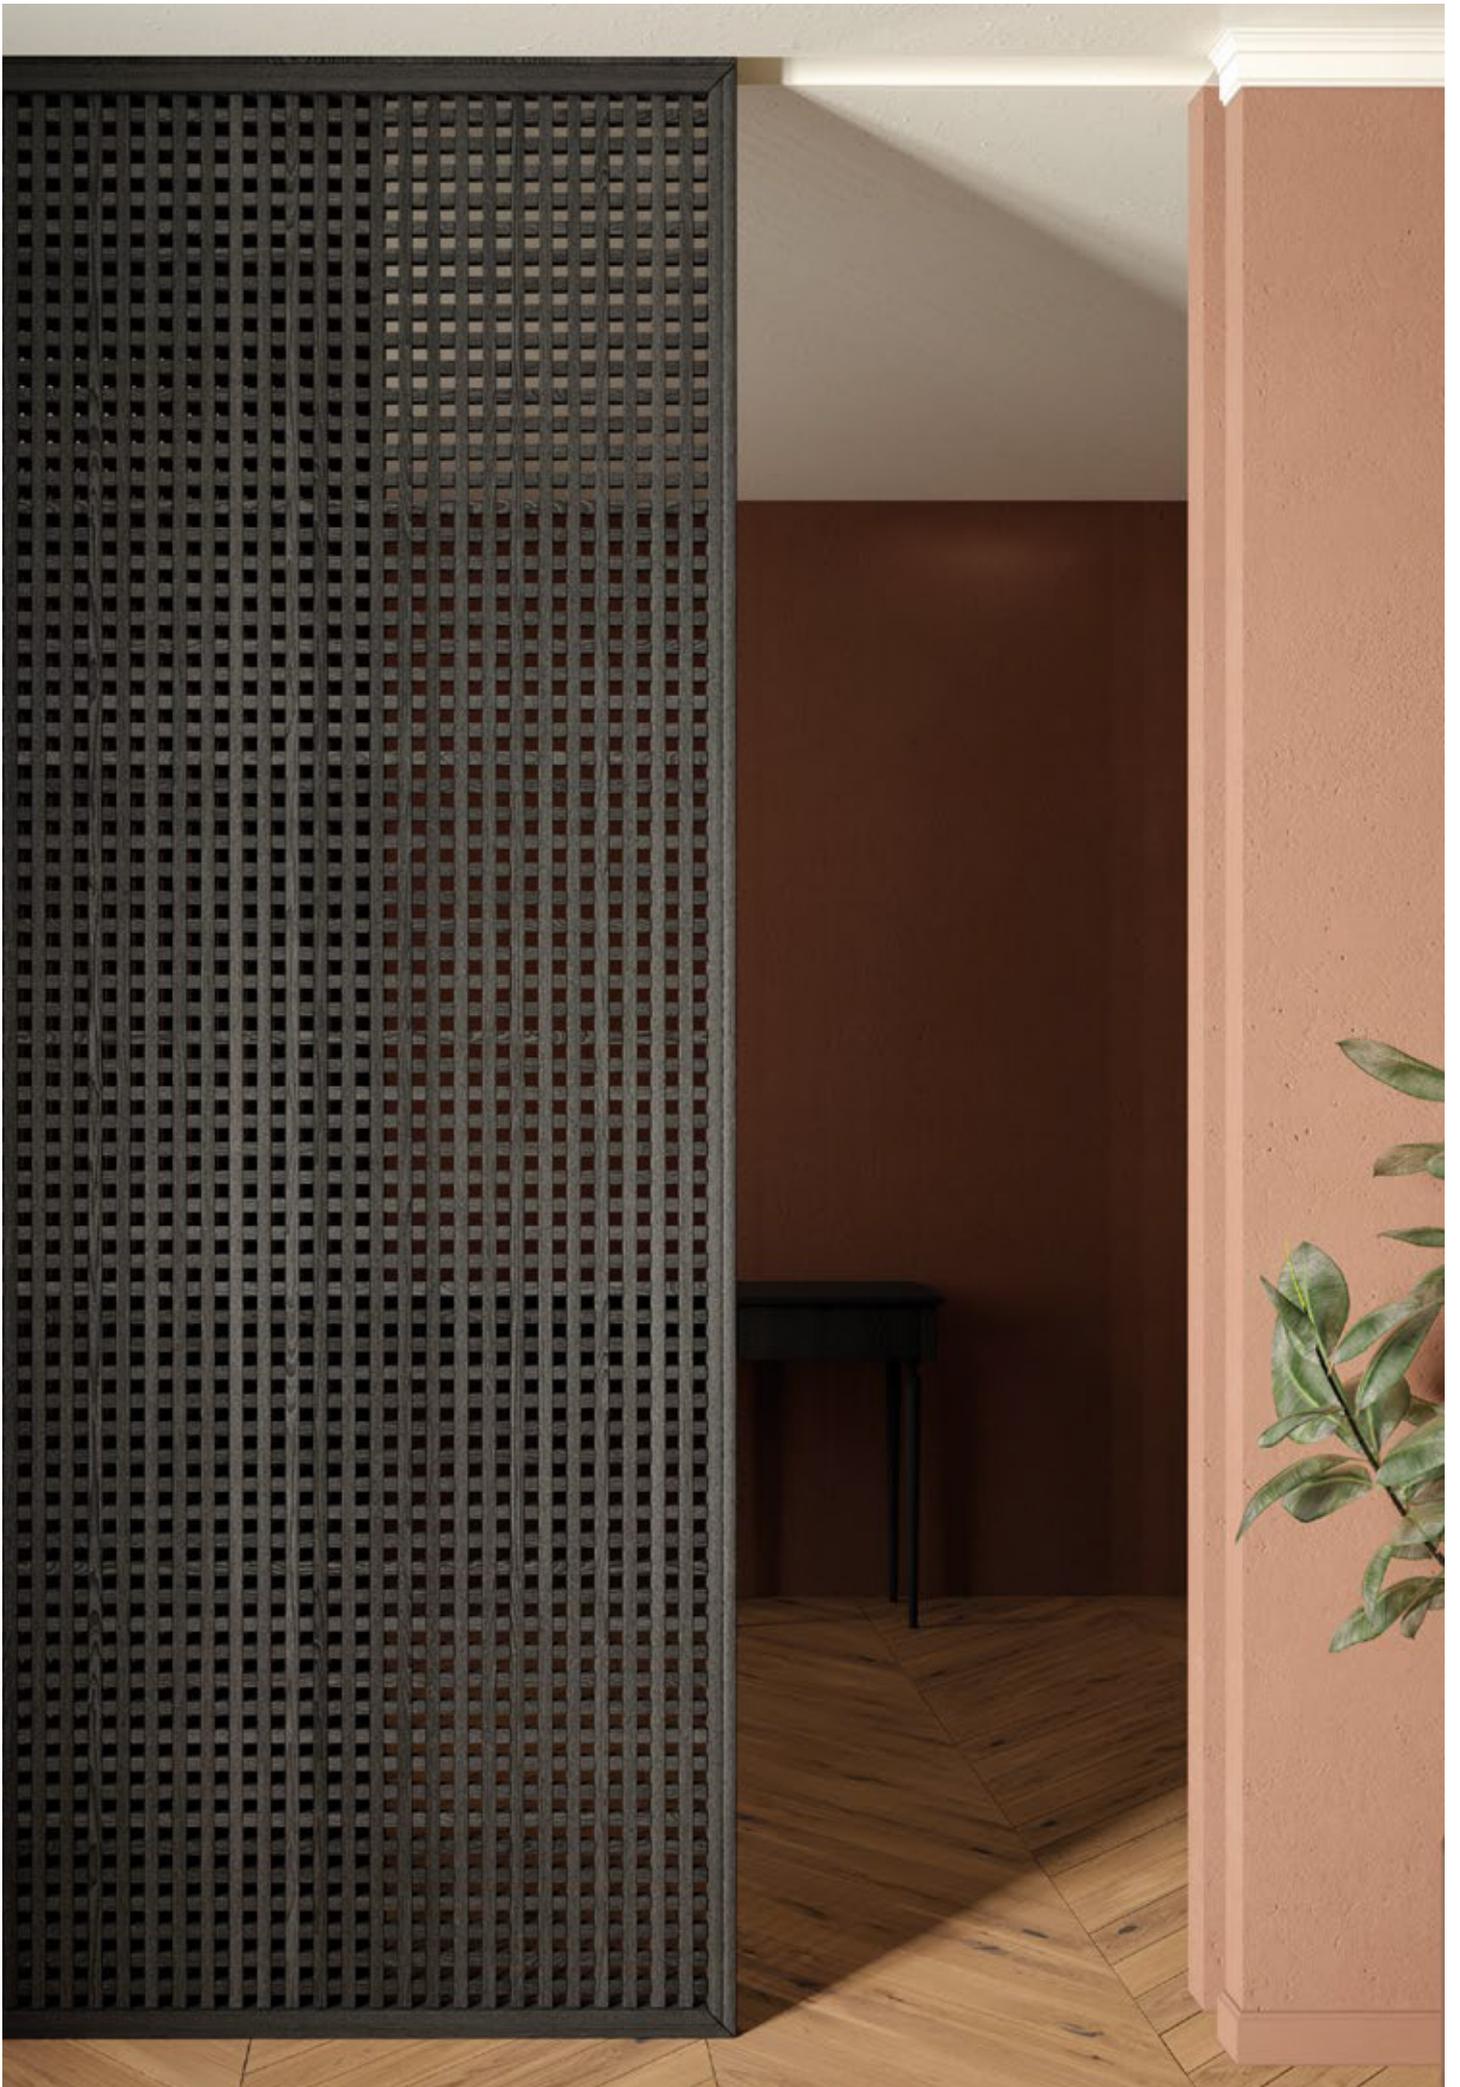

ZEST Coffee table

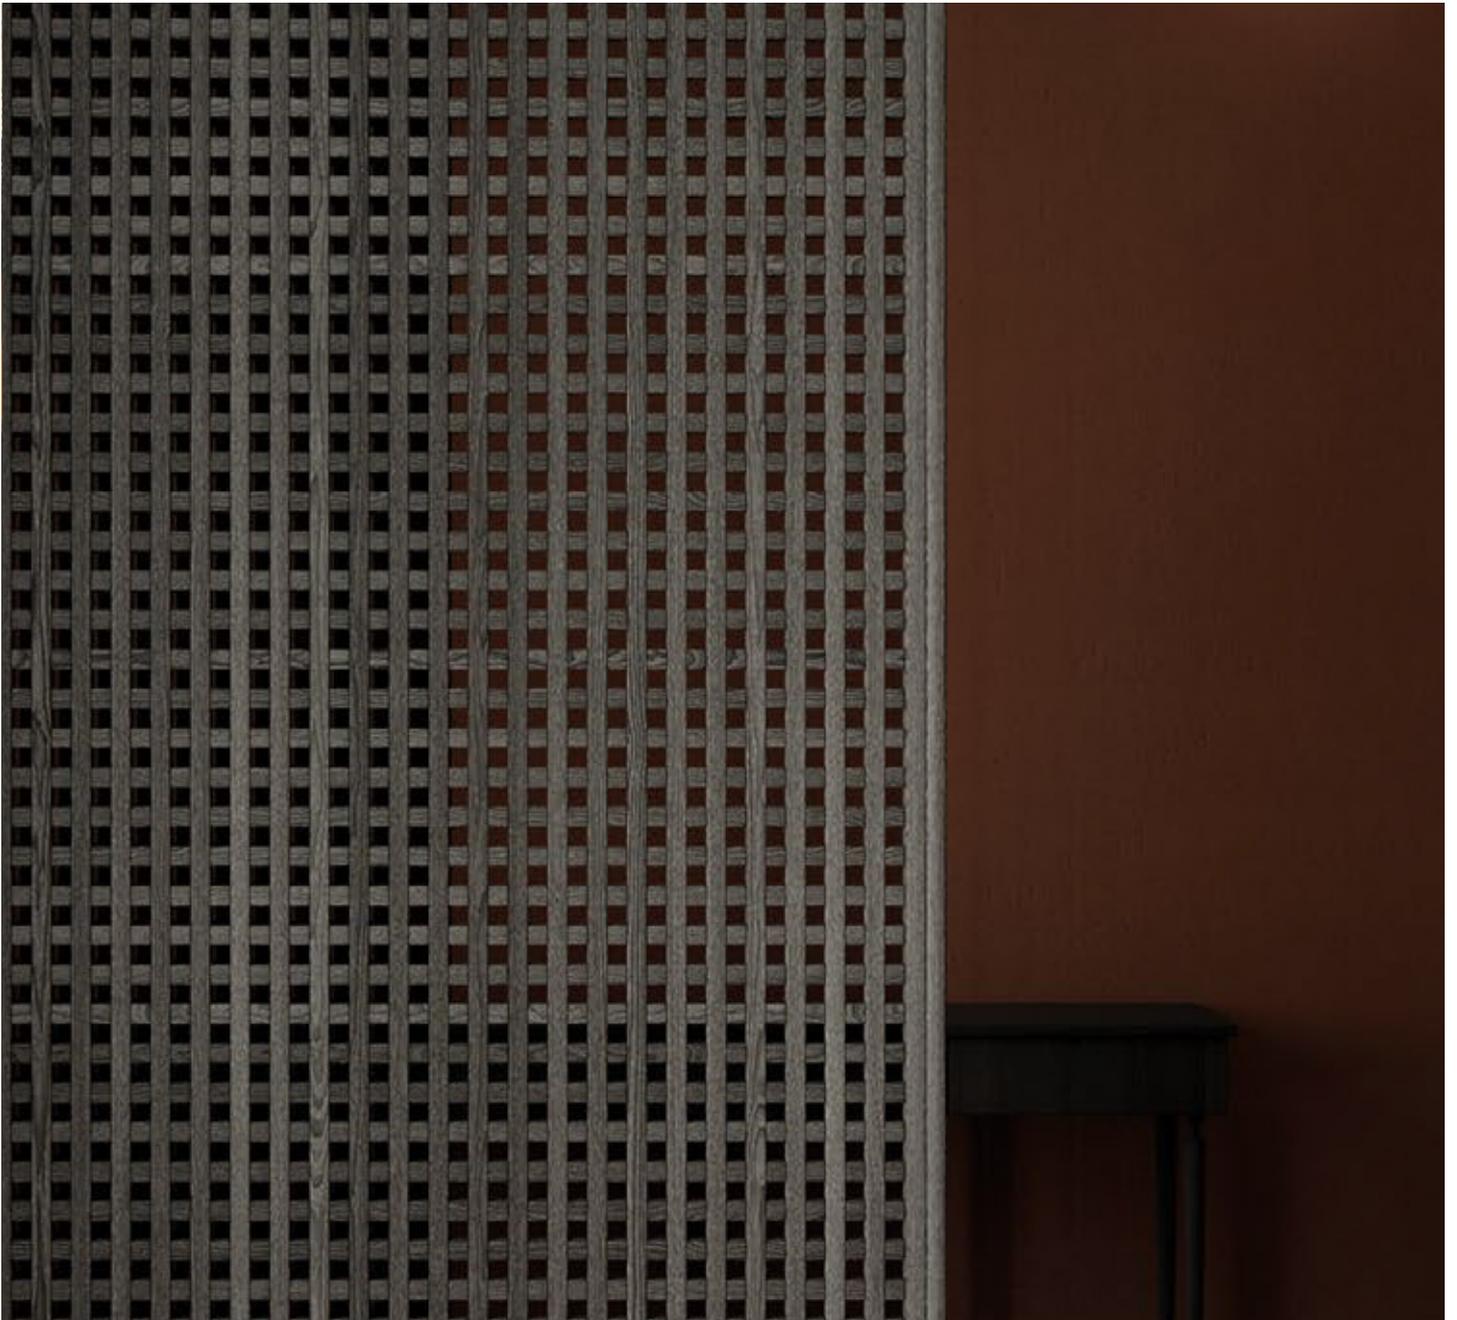

An original coffee table Zest created by us for your special moments. The Mid-Century Modern collection of furniture and wall panels is a timeless elegance that will fill your home with only the best. When developing Zest, we combined cold stone with warm wood and metal. We placed it on an elegant foot, supported by three stone balls. This balances the composition of the table, at the same time making it light and stable.

CELL

Collection

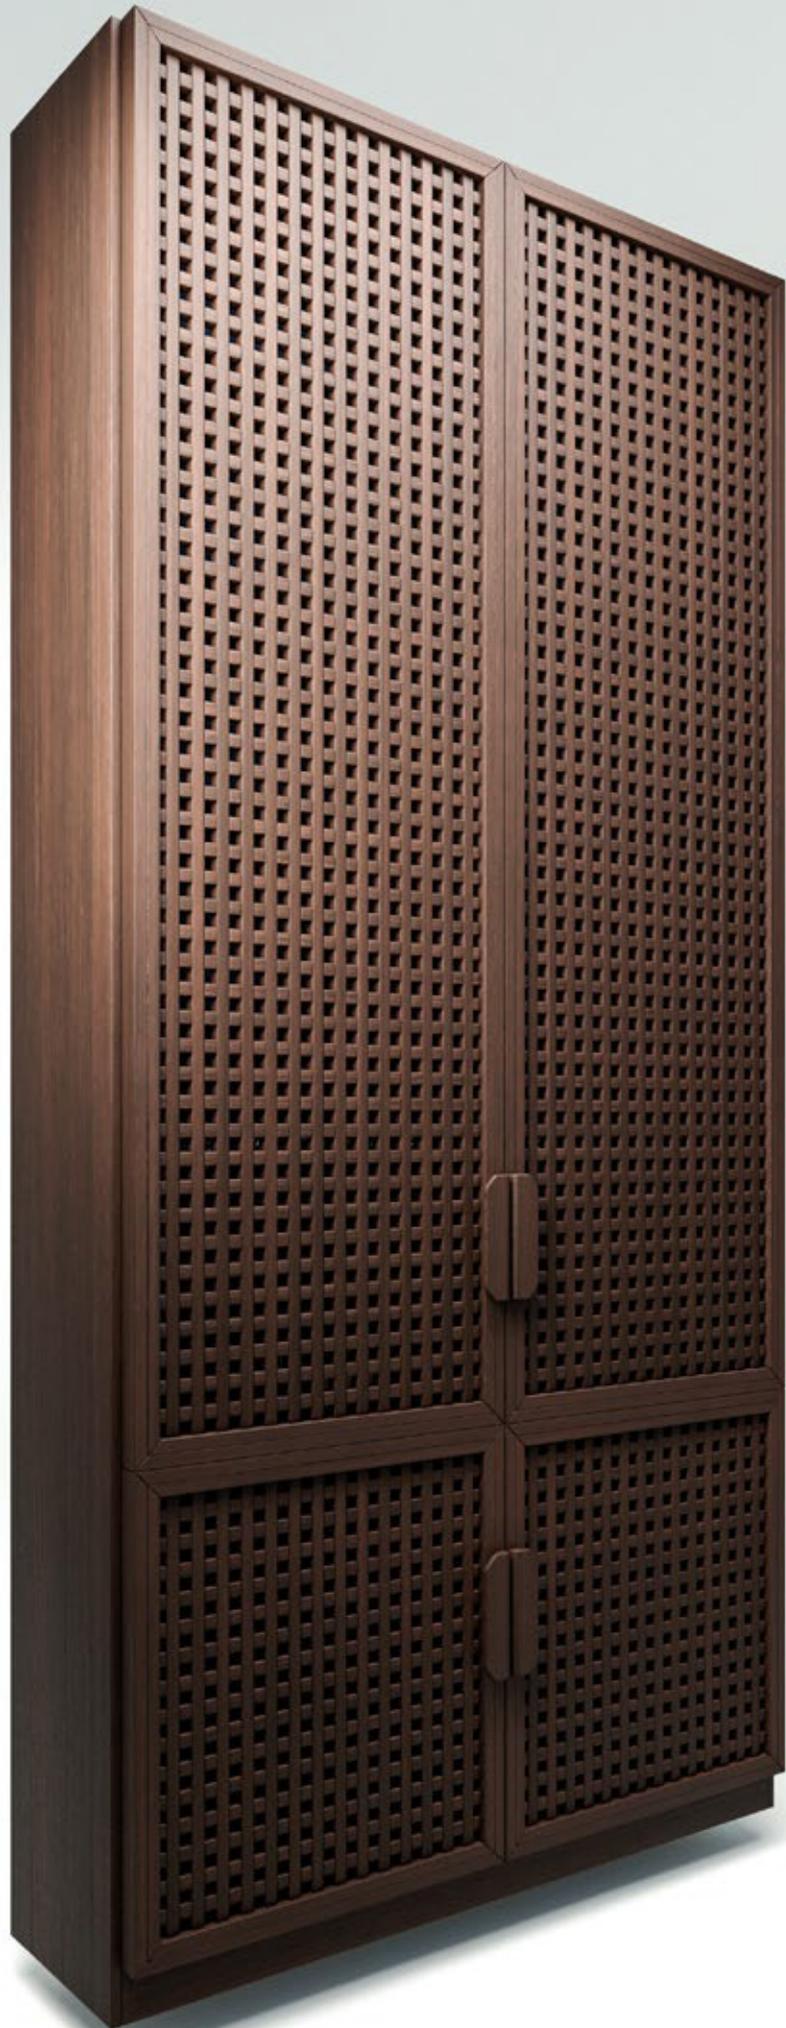

minimalism: visually light and functional

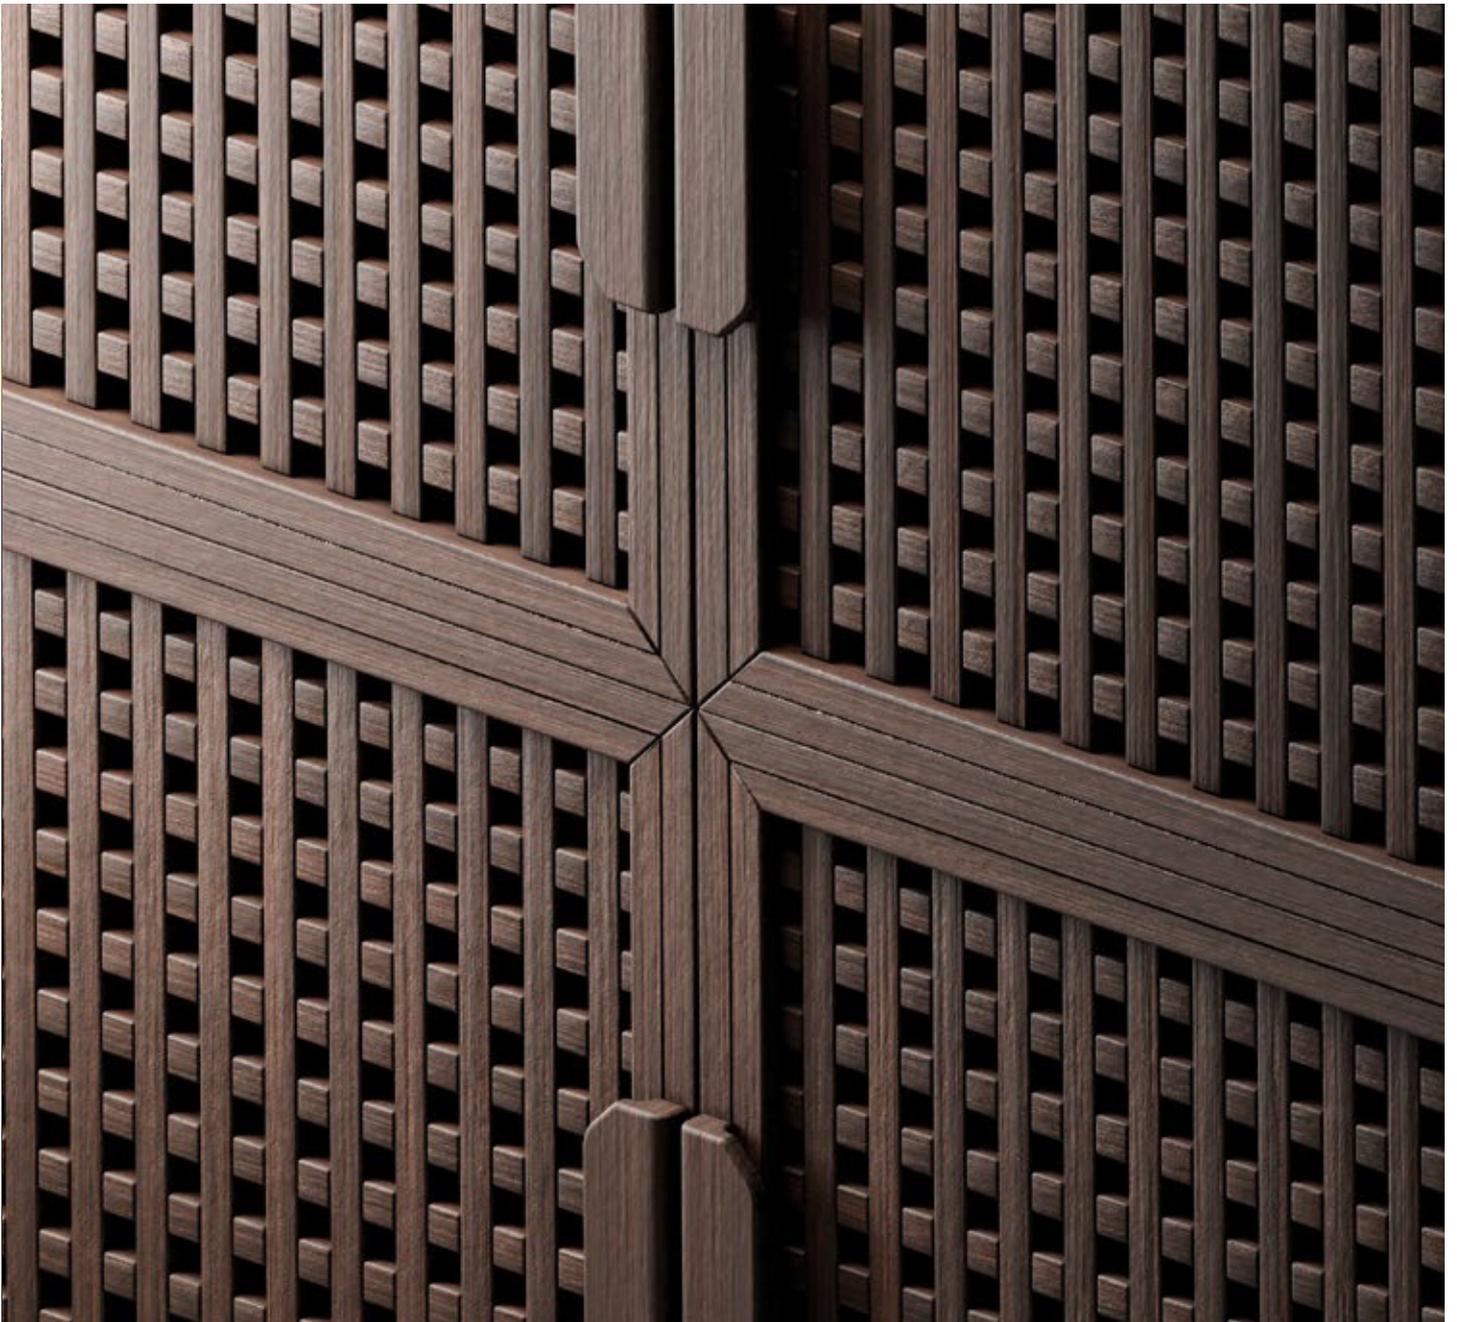

CELL EXPANSION Partition

The wooden partition Cell Expansion maximizes space and frees it from excess. It is a conscious use of space, a feeling of flow and continuity thanks to the free penetration of light and air through the replicas. The Cell Expansion establishes a connection between spaces while preserving the privacy of its sections. The unique play of light on the walls and floor – a pattern left by Cell Expansion cannot leave connoisseurs of exquisite fantasy furniture indifferent.

CELL SIDE BUFF Wardrobe

The Cell Side BUFF wardrobe or cupboard is designed by YourFoRest to fill the space with essentials. While working on the design, we aimed to preserve the simplicity and reliability of a classic wardrobe, making it visually light and functional. The Cell fronts from the eponymous collection made of natural ash wood are intricate elements carefully selected and adapted to each other. Each element is meticulously crafted and finished by a master – it seems to breathe, maintaining cleanliness and order with its concise lines.

ESSENCE LIGHT Console

Concise functionality as it is – that's the Essence Light console made from natural ash. We didn't invent unnecessary details; instead, we created a convenient and reliable element of your interior from natural materials that won't clutter the space but will accentuate its minimalistic and restrained aesthetics. Concise interiors require concise solutions, organic forms, and simple answers.

ESSENCE GREAT Console

Wooden console Essence Greate is the cornerstone of style, interior identity, and a concise response to the most demanding taste. It represents your personal aesthetics, characterizes your home, and becomes your reliable companion in daily comfort.

TOUCH Vinyl storage cabinet

For connoisseurs of classics and style, we have created an extraordinary interior unit – the Touch vinyl storage cabinet, elegantly complementing the collection of wall panels and furniture in the Japanese-style Cell. Touch is a retro melody that will appeal to fans of stylish and functional items. With it, your vinyl record collection will have an exquisite hiding place, and your record player will conveniently fit into the concealed shelf. Wooden dresser for vinyl Touch will protect your musical treasures from dust, dirt and sunlight.
