Furniture'23

YourFoRest is the leading brand of wall panels in Ukraine.

Later on, we came up with the idea of complementing wall panels with furniture items. Piece by piece, furniture collections have turned into a distinct full-grown product that already has more than 40 original items.

PONTELLI

Collection

designed for a modern interior
that needs simple but expressive solutions

PONTELLI Sideboard

The facade of a wooden Pontelli sideboard echoes the pattern of the wall panel of the same name. It was created to complement the panel. Still, the Pontelli sideboard is an absolutely self-sufficient interior item so if you wish, you may decouple it from the wall decoration.

The body of the sideboard is divided into 4 identical compartments with doors. The dimensions of the sideboard, the facade and body color solutions are customizable.

PONTELLI Bedside table

The cabinets from the Pontelli collection are a logical continuation of the already familiar furniture history. The Pontelli wall panel was created by Juanny Barcelo Borges based on the works of the famous artist Baccio Pontelli, and its pattern has long won the favor of wood lovers in the interior. Due to the precise design, the cabinet "hides" light switches, sockets, and phone wallets. The facade is made of a mix of solid oak and ash, and the interior is made of MDF veneered with natural ash.
