Wall panels'23

YourFoRest is a leading manufacturer of wall panels in Ukraine.

The design of the panels was created in collaboration with Italian and Ukrainian designers.

Our philosophy is the balance of quality and beauty along with green consumption and production.

PURE GEOMETRY

Collection

Laconic and restrained geometry
of wall decor

Oblique

The elegant Oblique wall panel is a brilliant and dynamic graphic composition with contrasting and sculptural details. The expressive geometric rhythm of the wall panels sets the tone of the interior, while the Oblique toning reveals the warmth of natural wood in the design of a living room, kitchen or bedroom.

Material: veneered MDF, ash.
Coating: oil or lacquer.

Carre

Carre ash wall panel is the result of YourFoRest collaboration with the famous Ukrainian architect Yuriy Zimenko, winner of many prestigious awards in the field of architecture and design. Carre is our view of modern wall decor, which can be both concise and eloquent. Its pattern resembles a classic wall tile, but the texture of the wood visually softens the space and makes it three-dimensional.

Material: ash.
Coating: oil or lacquer.

Wood diamond

Wood Diamond is a jewelry made of wood. It has many facets, it glows from the inside with warm woody shades. This wall panel can be used in the decoration of all the wall or just a part of it, to fill a niche and as a bed headboard or in other different cases.

Wood Diamond will look harmonious both in the classical interior and in contemporary ones.

Material: ash.
Coating: oil or lacquer.

Matrix

Matrix wood panel design was created specifically for YourFoRest by Juanny Barcelò Borges — designer from Ravenna, Italy. The idea of simple randomness is achieved by using 3 types of square wooden plates. They like information units form a matrix with a unique pattern.

Material: ash, walnut.
Coating: oil or lacquer.

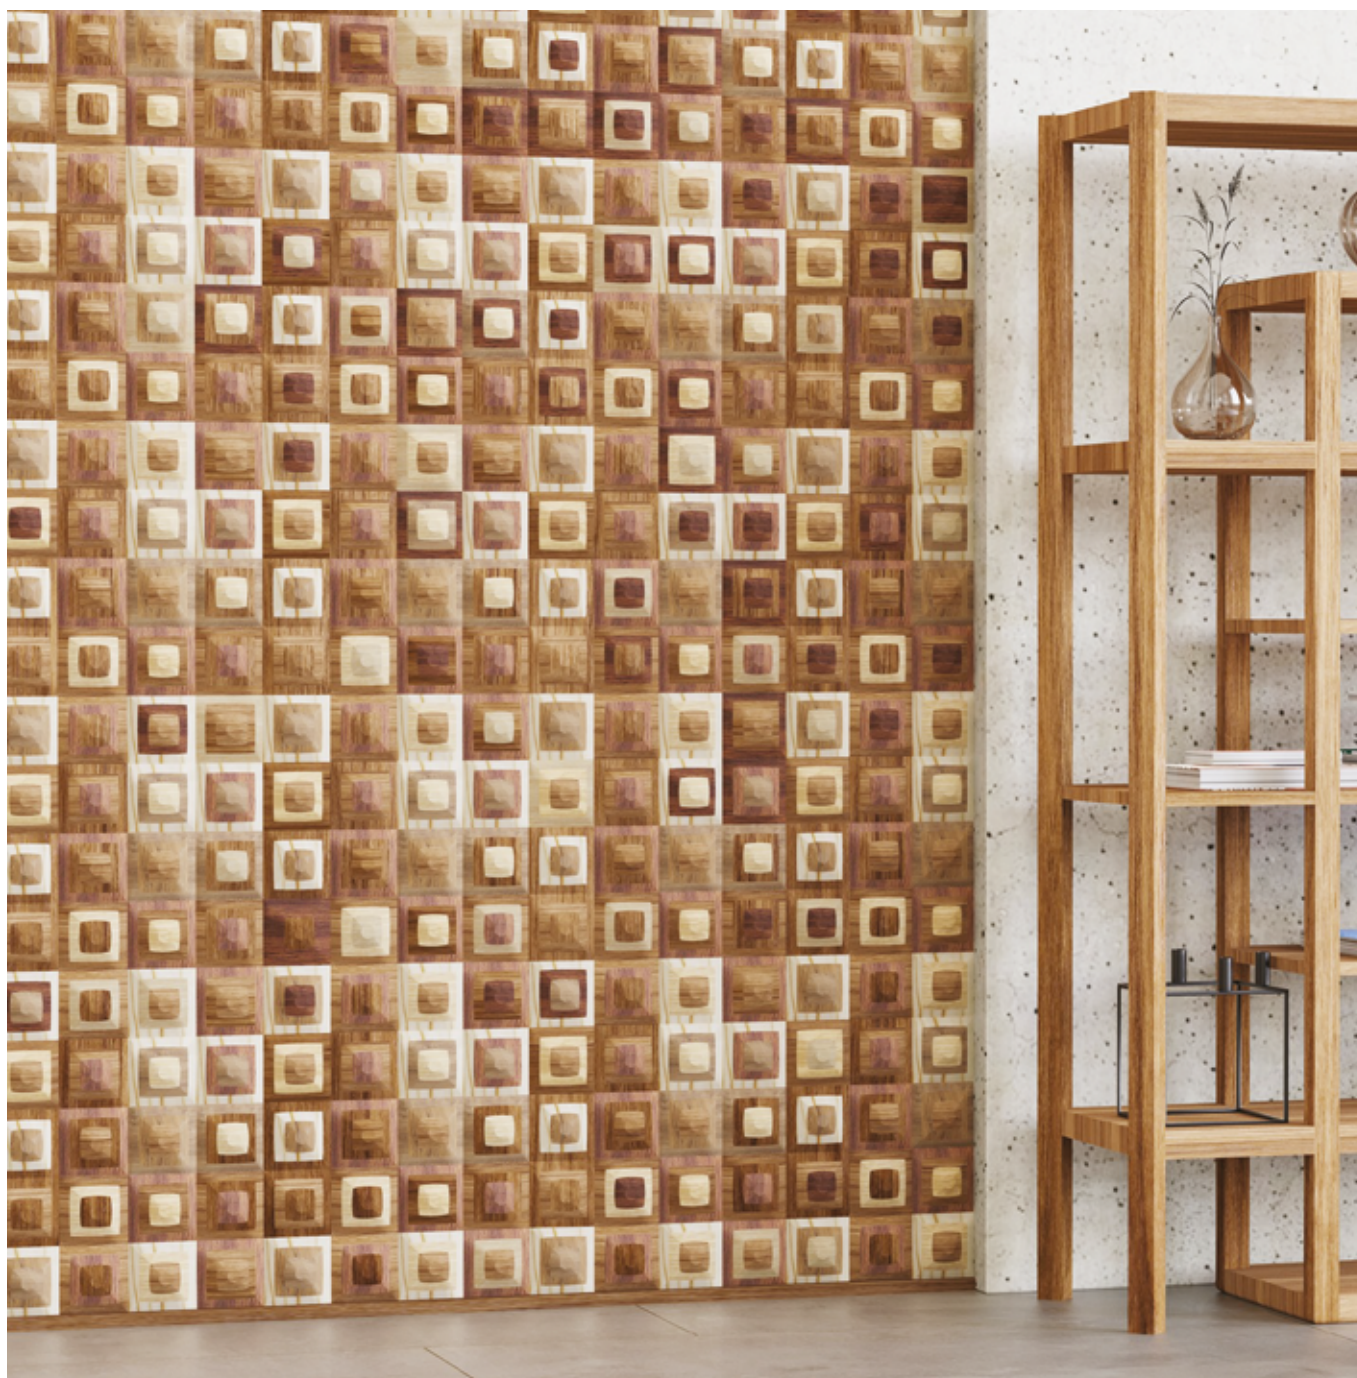

AESTHETICS

Collection

Art frozen in wood

Prism

The designer Juanny Barcelò Borges from Ravenna, Italy, developed a model of Prism panels for YourFoRest. In collaboration with him, we created a unique shape, unlike any other model of wooden panels. Complicated, volumetric, rhythmic, optical, built in contrast, Prism — the ordered chaos of various shades of wood.

Material: walnut, ash, oak, maple, cherry.
Coating: oil or lacquer.

Italy classic

Italy Classic panels combine the motifs of ceiling caissons, the decorative elements of Italian Renaissance temples and palaces, and the motifs of modern abstract art, namely the works of a painter and graphic artist Frank Stella. The Italy Classic code consists of three types of square elements, which make up the entire random canvas of the wall panel.

Material: walnut.
Coating: lacquer.

Kliko

A dreamer and innovator, Yuri Zimenko created this non-trivial ensemble of furniture and panels on the call of inspiration in a matter of minutes: because that's how masterpieces are born, isn't it? Kliko challenges conventions, breaks patterns, makes you look at familiar things from a new angle. It is a mix of asceticism and kitsch, impudence and elegance, eclecticism and modernism. Kliko is a decor for real daredevils who are half a step ahead of their time. It's impossible not to fall in love with it, but you have to be brave enough to make this bright story a part of your interior.

Elegant curves in wood decor

Dance

The Dance wall panel is an elegant and modern decor for laconic interiors. YourFoRest together with Italian designer Juanny Barcelò Borges created a collection of wood wall panels for children's rooms and playrooms, inspired by the works of renowned painter, graphic artist and sculptor Jean Arp. Dance is a play of forms, a dance of rhythmic figures, a lively and dynamic pattern. The wall panel is made from a combination of solid ash and natural ash veneer, tinted in contrasting shades.

Material: veneered mdf, ash.
Coating: lacquer.

Nuage

Aesthetics of Chaos is the original code for the Nuage wall panel, designed by YourFoRest in collaboration with Juanny Barcelo Borges. Light as a cloud, lively and asymmetrical, Nuage leads us into a world of playful forms and orderly dynamism. We open a new look at interior decor: wall panels — as art in everyday life, a symbiosis of environmental friendliness and hedonism, traditional and modern.

Material: veneered mdf, ash.
Coating: lacquer.

TENCH

Collection

Simplicity of lines in wooden execution

Pontelli

The Pontelli decorative panel was created by Juanny Barcelò Borges and YourFoRest, inspired by the Florentine architect and carpenter Baccio Pontelli. Pontelli is a synthesis of Italian classics and modernity, composed of pairs of elements that are mirrored, creating a strong composition. Simple and at the same time expressive idea, environmental friendliness, the possibility of customization due to the color and location of the modules — the main advantages of the wooden panel Pontelli, which are so valued in contemporary interiors.

Material: ash, oak.
Coating: oil or lacquer.

Mineral

Mineral Panel is a modern look on minimalism in wall decor. These are battens, which have started a rhythmic dance. Juanny Barcelo Borges has created a laconic wall panel that decorates and completes the interior. The wall rail is a unique element. Distinctive in itself, it can create many combinations and patterns. Mineral Panel opens up the slats from a new side: conical shape, beveled edges, non-trivial element length, interesting block placement pattern.

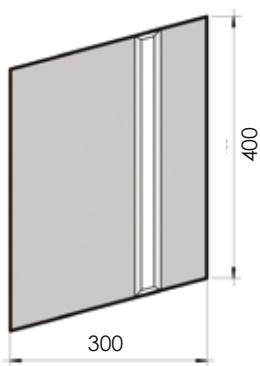

Material: veneered mdf, ash.
Coating: lacquer.

PRODUCT SPECIFICATIONS

PURE GEOMETRY Collection

Model: Oblique

Material: veneered MDF, ash

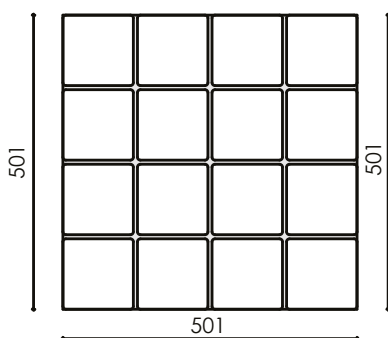

Coating: oil or lacquer

Toning (optionally)

Module size: 300x400x20 mm

Tile weight (1 pc.): 2,2 kg

Tile weight (1 sqm): 18,3 kg

Model: Carre

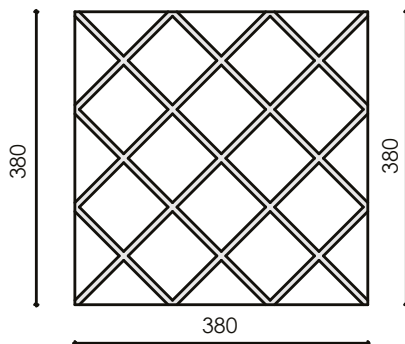

Material: ash

Coating: oil or lacquer

Module size: 501x501x20 mm

Tile weight (1 pc.): 4,1 kg

Tile weight (1 sqm): 16,3 kg

Model: Wood diamond

Material: ash

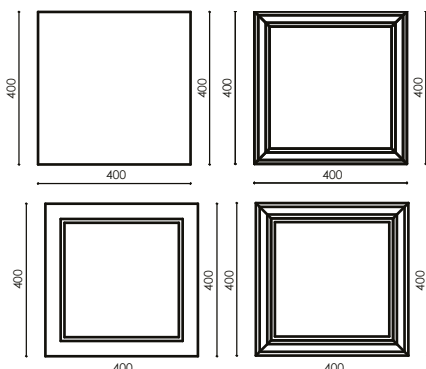

Coating: oil or lacquer

Toning (optionally)

Module size: 380x380x30 mm

Tile weight (1 pc.): 5,1 kg

Tile weight (1 sqm): 20,4 kg

Model: Matrix

Material: ash, walnut

Coating: oil or lacquer

Module size: 400x400x20 mm

Tile weight (1 pc.): 3,1 kg

Tile weight (1 sqm): 19,37 kg

AESTHETICS Collection

Model: Prizm

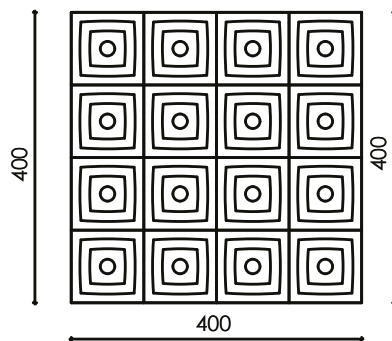

Material: mix walnut, ash, oak, maple, cherry

Coating: oil or lacquer

Module size: 300x300x50 mm

Tile weight (1 pc.): 4 kg
